

This is a first issue of the "for sale" page. (see explanation in president's message).

It provides an opportunity for members to sell tools and machinery items and for other members to have first chance to buy these items for their woodworking endeavors.

Both photos, front & rear view: Three MILLER FALLS bench planes in good to very good condition. Blades have a lot of sharpening length remaining. These planes have double action clamps. The two planes on left are #14's (equivalent to a Stanley #5). The right plane is a #9-C, corrugated bottom (equivalent to Stanley #4).

#14 = \$50 ea. #9 -C = \$45.

Buy two: 9-C and a #14 = \$80.

Left: Stanley #5-1/4 plane. A hard to find size. Length is half between a #4 & #5 and narrow like a #3.

NICE plane: #5-1/4 = \$85

Right: Stanley #10 plane. A bench rabbet plane. Again, a hard to find rabbet plane.

#10 = \$135.
